Great Improvement in Sewing Machines.
EMPIRE SHUTTLE MACHINE.
PATENTED FEB. 14, 1860.

Salesrooms, 536 Broadway, New York, 250 Washington St., Boston.

THIS MACHINE is constructed on entirely new principles of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be

Simplicity and Perfection Combined.
It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, with cotton, linen or silk thread, from the finest to the coarsest number. Having no CAM or COG WHEEL, and the least possible friction, it runs as smooth as glass, and is

Emphatically a Noiseless Machine.
It requires FIFTY PER CENT. less power to drive it than any other machine in market. A girl twelve years of age can work it steadily, without fatigue or injury to health.

Its strength and wonderful simplicity of construction renders it almost impossible to get out of order, and is GUARANTEED by the company to give entire satisfaction. We respectfully invite all those who may desire to supply themselves with a superior article, to come and examine this UNRIVALED MACHINE.

But in a more especial manner do we solicit the patronage of
